

## **Cumberland County Prosecutor's Office Launches Website to Promote Community Resources for Youth**

**Instructions:** Points denoted with a 'o' bullet are Talking Points for Parents. Points denoted with an arrow are suggested instructions of walking your children through the website.

### **Talking Points:**

- Your school just let me know about a website listing services that you may be interested in.
- Go to Future Remix Website at <https://futureremix.org/>
- If have time, show the 15 second video on page
  
- This is a great website that has a ton of resources for you to get actively involved with right now or over the summer break. You may have seen some Future ReMix billboards or social media ads already. The whole idea is to get involved in programs and services to help you be successful.
- The website is simple to access. All you do is scan the QR code or type the web address, futureremix.org, into your browser and it takes you directly to the website.
- Once you are on the website, scroll down to the area that says Find Your Future and click on any of the types of services that interest you. Once you do that, a pop up with programs and services will appear.
  
- Scroll down the website page to Find Your Future section and click on Mentoring.
  
- For instance, under "Mentoring", there are 8 different programs listed. Each program has a name of an individual who you can directly reach with a text, phone call, or email to inquire about their services and sign up. Also listed is their website and the specific services offer, along with age criteria.
- Once you reach out to the person listed, within about 24 hours or so, someone should be reaching out to you about the services and sign you up if interested.
- Do you want to contact any programs?
